

We are proud to share our 2021 Impact Report with you outlining the many ways Children's Research Triangle (CRT) and our mission partners like you improved the quality of life for children at risk for developmental, behavioral, psychological, and/or educational challenges. **We are deeply grateful for your support which allowed us to achieve the following together:**

- **We served 689 children and their families with critical mental health services**, including evaluations and therapy;
- **Through our 18 community-based partnerships**, we reached Chicagoland communities of color with the greatest need for and barriers to accessing mental health services;
- We increased mental health service capacity by **training 1,573 community-based child-serving participants**;
- And we provided a week-long summer camp experience for **86 children and youth with significant disabilities** through Camp SOAR.
